WAREHOUSE AND DISTRIBUTION CENTER
PRODUCT APPLICATION GUIDE
WAREHOUSE + DISTRIBUTION CENTER

Warehouses and distribution centers are the backbone of commerce, and it is essential to equip them with proper ventilation equipment. S&P Ventilation equipment will keep employees and visitors safe and comfortable, while ensuring that materials and machinery are well-ventilated. S&P USA is well suited to meet these needs with a wide range of reliable and efficient products. With the customer expectation of quick delivery, warehouse/distribution centers are increasing in quantity to be closer to the customer.

EXAMPLE:

Sports Beverage Facility

WHY IS IT IMPORTANT?

- Ventilation keeps the working space comfortable and safe.
- Many items give off fumes and gases that can negatively impact worker safety and performance. Ensuring proper ventilation is crucial for employee safety.
- Goods are kept in better condition when they are in properly ventilated spaces.

**WHAT IS ECOWATT?**

S&P has developed the Ecowatt® standard to classify energy-efficient products that use Electronically Commutated (EC) or Direct Current (DC) motors. Models that fall under this standard have a certified performance through AMCA (Air Movement & Control Association International, Inc.) or HVI (Home Ventilating Institute). If the product is designed for residential applications the model must be ENERGY STAR® qualified.
