

## INVESTMENTS IN OUR PLANT

Our company has made significant strides in the last year by investing in new and reliable equipment. This has resulted in increased efficiency and a lower risk of workplace injuries. One notable addition to our shop floor is the DAVI Roller, a 4-roll computer-controlled roller that makes much more precise rolled parts for items such as our Mixed Flow Fans, SMXD and SMXDK. Implementing this machine has significantly enhanced our productivity and is just the first step in a larger plan to increase our processing capabilities.

## REDISCOVER OUR OUTSIDE AIR SOLUTIONS

We are thrilled to launch our new and improved Outside Air Solutions Brochure! With this new brochure, it is now easier than ever to comprehend how our products can be utilized to enhance Indoor Air Quality.

Head to our website to download a [printer-friendly digital brochure](#) or visit our free print shop to order [already-printed tri-fold brochure](#).

## FIRE UP THE GRILLS!

This month the S&P USA team fired up the grills for an Independence Day cookout! Thank you to our grill masters Buddy, Josue, and Faith! The food was delicious and the time together was even better.
